3. In assessing the nature of the risk presented, the threat is from a novel infectious agent.

4. Directed Health Measures exist to effectively prevent, limit, or slow the spread of COVID-19 among persons within the boundaries of the Political Subdivisions.

5. A delay in the imposition of Directed Health Measures would significantly jeopardize the ability to prevent or limit the transmission of COVID-19 and pose unacceptable risks to persons within the boundaries of the Political Subdivisions.
